Now the Americans, whose commercial and political influence has grown to be predominant in the Far East, are aware that the despatch in question refers more particularly to them. They understand that Austria, which is now friendly to Germany, would like to disturb the very close alliance existing between Rassis and the United States, and they direct attention, in answer, to facts which show that, if there is any navel power to be feared, it is not Rossie, their ally, but Garmany, which is increasing the number of its vessels, and the official journal of which, the Deutches Heeres Zeitung, has again recently proclaimed the orgent reconsity of acquiring Gorman colonies, particularly in the Gulf of Mexico. This, it is said, will explain, parhaps, the contract made by the Government of Berlin with Mr Roach, the most eminent shipbuilder in America, for the construction of three ships, the Schoenhousen, the Courlands, and the Esthernic, which ere intended to surpass, in sailing qualities, the vessels that Russia has recently purchased or had built in the United States.

While the corvette was in the lower limits her Royal Captain was visited by the Acting Italian Consul, Mr C. de Boleslawski, aud on his leaving the vessel he received a salute. His Royal Highness will not find much to amuse him in Shanghai itself, and, now that the shooting season is over, a trip into the country will be rather dull work, after peregrina. tions in Japan and other highly favoured countries which His Royal Highness has

extra matter.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best 3jn80 paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address China Review, Hongkong.—Northern

Trubner's Oriental Record contains the following notice of the China Review :- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calculta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable : and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uhinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors.
